AVIION SOLUTION

Distribute your content to any connected media device with AVIION solution.

AVIION offers the whole production chain from the content as a source to the end users and their devices. For everything in between - confide in AVIION.

FEATURES

Cloud solution. Choose our infrastructure, lower your investments and costs, pay as you grow.

Popular platforms. iOS, Android, Smart TV, Chromecast, Amazon Fire.

White label. Customize the app to make it look like your own. AVIION is in the background. The front row is yours.

Advertising. Use the platform as a revenue generator.

Live and on-demand. Stream live channels and watch videos on demand. Make VODs from live content and vice versa.

Monitoring. Rely on our extensive AVIION monitoring system.

Reporting. Use statistics in business planning.

DRM. We care about your content protection by implementing high quality DRM solutions.

Interoperability. Link the AVIION solution to your CRM, billing, and other infrastructures.

A GREAT FIT FOR

- **Broadcasting.** Enrich your offer with AVIION OTT and HbbTV solution. Add more value to your content.
- **Telecommunications.** Widen your offer and provide added value and experience to your customers with AVIION OTT solution.
- **Conferences and events.** Stream presentations, record keynotes, make them available on-demand, guide your participants with AVIION app.
- **Education.** Stream your lectures online, share recordings and have downloadable e-books in the same app.
- **Museums and galleries.** Offer information about your exhibits, videos, guided tours and similar media through AVIION app.
- **Shopping malls.** Increase your market presence and provide unified platform for promo videos and other info.
